

### Course Objectives

#### Apply Army Leadership Framework while leading teams.

- Apply the Army Leadership Framework – values, attributes, skills, and actions of the “BE, KNOW, and DO” model – in tactical situations.
- Compare and contrast different leadership styles and effects on team dynamics.
- Apply effective oral and written communication skills in Army operations.
- Counsel subordinates on performance.

#### Apply tactical principles and doctrine to Army Operations.

- Conduct troop leading procedures.
- Analyze terrain in practical situations.
- Navigate from one point to another.
- Apply principles of squad tactics in offensive and defensive operations.
- Conduct a risk assessment using 5 steps.

#### Analyze personal readiness to enter LDAC in key areas of flexibility, character, adaptability, and fitness.

- Conduct a self assessment in personal development areas.
- Develop a readiness plan in preparation for LDAC.
- Identify battle fatigue risk factors and leader actions to offset them.

## MSL 301: Adaptive Team Leadership

### Overview

MSL 301 challenges cadets to study, practice, and evaluate adaptive leadership skills as they are presented with the demands of the ROTC Leader Development Assessment Course (LDAC). Challenging scenarios related to small unit tactical operations are used to develop self awareness and critical thinking skills. Cadets receive systematic and specific feedback on their leadership abilities.

Cadets begin to analyze and evaluate their own leadership values, attributes, skills, and actions. Primary attention is given to preparation for LDAC and the development of leadership qualities.
