MSL402: Leadership in a Complex World

Overview

MSL 402 explores the dynamics of leading in the complex situations of current military operations. Cadets examine differences in customs and courtesies, military law, principles of war, and rules of engagement in the face of international terrorism. Aspects of interacting with non-government organizations, civilians on the battlefield, and host nation support are examined and evaluated.

Significant emphasis is placed on preparing cadets for their first unit of assignment. Case studies, scenarios, and "What Now, Lieutenant?" exercises are used to prepare cadets to face the complex ethical and practical demands of leading as commissioned officers in the United States Army.
